

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- - Cancel claims 23-28 - -

Election/Restrictions

Claims 1 and 12 are allowable. The restriction requirement between species I, II, III, as set forth in the Office action mailed on 10/30/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 8-10, 18-20, directed to a non-elected species are no longer withdrawn from consideration because the claim(s) require all the limitations of an allowable claim. However, claims 23-28, directed to non-elected Group II remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is **withdrawn**, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 23-28 directed to Group II non-elected without traverse. Accordingly, claims have been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art discloses an elongate composite pole similar to the claimed pole, and the prior art discloses a material comprising the claimed percentages of polyethylene and ground rubber particles, but the prior art does not disclose or suggest an elongate pole having an outer casing comprised of the claimed material and it would not have been obvious to one of ordinary skill in the art in view of the prior art to make such a combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jessica Laux whose telephone number is 571-272-8228. The examiner can normally be reached on Monday thru Thursday, 9:00am to 5:00pm (est).
